

SHOUT sp Vehicle Mounting Kit

What's In The Box?

- PTT Speaker-Microphone
- Power Cable
- Charging Adapter
- SHOUT sp Cradle
- Suction Cup Mount (depicted below) or Bolt-Down Mount

SHOUT sp Vehicle Mounting Kit

The Push-to-Talk (PTT) Vehicle Mount securely holds the SHOUT sp in stationary or moving vehicles while leaving the entire screen and control buttons accessible. It enables charging from vehicular power and provides remote PTT capability through a handheld speaker-microphone. The handheld speaker-microphone amplifies PTT audio for use in noisy environments. The full kit consists of the PTT speaker-microphone, power cable, charging adapter, cradle, and either a suction cup or bolt-down mount. The PTT Vehicle Mount is a highly reliable solution for safe and efficient communication while in a vehicle.

Key Features

- SHOUT sp cradle
- Suction cup or bolt-down mount for temporary or permanent installations
- PTT Handheld Speaker-Microphone: 85dB Maximum Sound Power Level (SWL) @ 1KHz
